

Some Apps for investigations

Kiev 13-16. october 2011

Nils Mulvad nils.mulvad@kaasogmulvad.dk

Delicious – bookmarks. Look, add, tag.

Dropbox – upload files. Share.

Google – easy access to all google programs.

Scanner Pro – Scan documents with the smartphone

Red laser – Bar code scanner

Camera – Video - Take photos of documents and send to Flickr

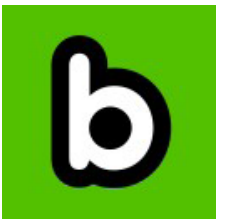

Hindenburg Mobile – sound editing.

iMovie – editing video.

Audio Boo – sound recorder

Bambuser – live video streaming

Flickr – upload of photo

Web Albums – upload of photo to Picasa

Tweetdeck – good to send tweets with photos and follow stream

Echofon – another smart twitter-app.

EveryTrail Pro – shares routes and incorporate photos and videos.

CityMaps2Go – Lot's of maps – works when no data access.

Example of Trails:

http://www.everytrail.com/view_trip.php?trip_id=1009212&code=20f3a086097eb36972a61256f700f885

<http://helsemesse.mediajungle.dk/2011/10/02/livetracking-gellerup-til-helsemesse/>

Editing social media:

www.storify.com

Example: <http://www.u21live.com>
